Core Expertise

- Lean Practitioner
- Industry 4.0
- Projects Management
- Process Improvement
- Lean Manufacturing & Loss Elimination
- Continuous Improvement
- Business Loss Analysis
- Smart Factory Solutions Deployment
- Strategy & Implementation
- Production Optimization
- Performance Control System

Soft Skill

- Leadership
- Decision making
- Problem-solving
- Data Analysis
- Communication
- Presentation
- Critical thinking
- Team Work
- Conflict management
- Resource Utilization Analytical Skill

Education Background

- Dawood University of Engineering & Technology Karachi
BS Industrial Engineering and Management
2001 – 2005
- Khanewal Public School & College Khanewal
FSc PRE-ENGINEERING
1997-1999

About Me

Dedicated and detail-oriented process improvement enthusiastic Lean Practitioner with 18 years of experience. Cost-conscious and analytical with history of success optimizing quality and production processes in fast-paced manufacturing environments. Increase productivity, quality, and profitability through keen data analysis and process design; significantly improve operations and provide efficient resolution of production issues.

Experience Overview

ORIENT Apparel Pvt Limited
Apr 2024 ~ Present
Director Operations

Crescent Bahuman Ltd
Nov 2020 – Mar-2024
Assistant Vice President

Masood Textile Mills Ltd.
Jan 2018 – Nov 2020
HOD Manufacturing Excellence

Interloop Limited
Dec 2010 – Jan 2018
Senior Manager Operations

US Apparel & Textiles
Nov 2008 – Nov 2010
Group Manager Industrial Engineering

Artistic Milliners
Feb 2008 – Nov 2008
Deputy Manager IE

Crescent Bahuman Ltd
Dec 2005 – Feb 2008
Assistant Manager IE

Professional Experience

ORIENT Apparel Pvt Limited

Apr 2024 ~ Present

Director Operations

A premium garment manufacturing brand focused on creating fashion-forward practices through innovation and sustainability.

Key Responsibilities

1. Strategic Planning & Execution

- Develop and implement operational strategies aligned with company goals.
- Drive continuous improvement initiatives across production and logistics.

2. Manufacturing Oversight

- Ensure efficient production processes with emphasis on quality, cost, and delivery.
- Oversee capacity planning, scheduling, and maintenance of machinery.

3. Budgeting and Financial Oversight:

- Prepare and manage the operations budget, ensuring effective allocation of resources and cost management.
- Monitor financial performance, analyzing variances and implementing strategies to achieve financial targets.

4. Quality Assurance

- Implement and monitor quality control systems.
- Ensure compliance with industry standards, safety protocols, and customer specifications.

5. Team Leadership & Development

- Lead cross-functional teams (production, logistics, QA, etc.).
- Mentor and train operations staff; foster a culture of accountability and excellence.

6. Cost Management

- Optimize operational budgets and reduce waste.
- Drive cost-saving initiatives without compromising product quality.

7. Compliance & Risk Management

- Ensure compliance with local and international regulations (labor, safety, environmental).
- Identify operational risks and implement mitigation strategies.

8. Customer & Stakeholder Liaison

- Coordinate with sales and marketing to align production with market demand.
- Serve as a key point of contact for clients regarding production and delivery timelines.

Key Deliverables

• Operations Key Performance:

Overall Plant Manpower Rationalisation.
Improved OTD (On Time Delivery) from 68% ~ 90%.
Improved RFT of Final Audit to 94%.
Improved Plant Efficiency to 80%.
Reduction of Factory Overheads **80Mln.**

• BioMass Boiler Project:

Installation of Biomass Boiler to **save R.s 50 Mln per month.**

• Cost & Margin Improvement:

Reduction in Cost of Manufacturing (CM) by reducing overall expenses
Control of FOH and variable costs within provided budget
Energy Cost Reduction

• Quality and Compliance Outcome:

Right First Time (RFT) **≥ 95%**
Reduction in rework, rejection, and claims
Zero critical quality or compliance violations

• Supply Chain & Inventory Control:

Raw material availability aligned with production plans
Reduction in Fabric and Trims Shortage
Improved vendor performance and Lead times

• Minute Based Planning:

Initiated **Minutes Based Booking/Planning/Scheduling (Cut ~ Pack)** to avoid production bottlenecks

• Development of KPI's:

Development and monitoring of KPI's dashboard for all departments.

• Technical Training:

Technical Trainings of all HOD's on KPI's and SOP's implementation.

Crescent Bahuman Limited is Pakistan's first vertically integrated denim facility was inaugurated in 1995. As an AVP of Operations Excellence department i am leading Industrial engineering of Operations, Product Engineering, Lean & Loss Elimination, Automation and project management office.

Key Responsibilities

- Implementation of Operations Excellence and **Smart factory operations**
- Leading learning & development program on **lean manufacturing implementation**
- Conducted **technical trainings** of supervisors to enhance their skills
- Reporting on **Cost of Poor Quality (COPQ)** and driving improvement projects to reduce it
- Leading the CBL **zero loss journey** through Value Stream Mapping (**VSM**) and **COPQ**
- Initiated **digitization projects** for smart factory powered with **WIMETRIX, Edraak System, Datalyzer , Digital VSM, Rescreening Monitoring System (RMS)** and **Power BI**.
- Implemented **WIMETRIX** in sewing that provided real-time status of production variables to take informed decisions that **optimized productivity**.
- Single Piece Tracking through Smart Production Tracking System (**SPTS**) of WIMETRIX in Dry abrasion, Wet abrasion, washing, and Finishing area.
- Leading **Brown Field and Green Field projects (BIP)** to get more from existing infrastructure (Capacity Enhancement) and new business diversification feasibilities.
- Initiated **Minutes Based Booking/Planning/Scheduling** to **avoid production bottlenecks**
- **Workforce optimization** through **RACI** and Full-Time Equivalent (**FTE**) analysis.
- Developed Digital Project Management Office (**PMO**) to track the progress of projects

Key Deliverables

Greenfield Projects

- **10K Cut to Pack** feasibility of new **jeans** setup that is currently in the execution phase
- Successful execution of **5K new chino setup Cut to Pack**.

Brownfield Projects

- **Platinum Lead Certification** for the 15K capacity Stitching Floor by adhering all requirements.
- Supervised capacity expansion projects of **CAPEX Rs 109 Million** and Capacity improvement from **28K to 37K per day**

Loss Elimination

- Process **Losses were minimized** from **96 Million** to **26.4 Million** through VSM
- The **cost Per Garment** reduced from **\$9.4** to **\$8.8**
- Saved **\$15–18K** per month by introducing **Minutes Based Booking & Loading plan analysis**
- **Efficiency Improvement** from **61% to 71%** through better utilization of resources

Sustainability

- Implemented water reduction plan in washing through **Technology Intervention**.
- Measured and **reduced compressed air losses** within plant.
- Implemented measures to **minimize waste generation** during conversion processes to explore **circular economy practices**.

Masood Textile Mills Ltd.

Jan 2018 – Nov 2020

HOD Manufacturing Excellence

Masood Textile Mills is a vertically-integrated textile manufacturing company based out of Faisalabad, Pakistan with in-house yarn, knitting, fabric dyeing, processing, laundry, and apparel manufacturing facilities. As a HOD of the Manufacturing Excellence department i was responsible for resources optimization, lean manufacturing implementation and new jeans setup build-up.

Key Responsibilities and Deliverables

- Initiated and developed new **jeans production setup** of **0.6 Mln pcs/month** and planned/executed production as well.
- Started **Lean Manufacturing** Department By developing **Mission / Vision / Strategy / KPIs / Metrics**
- **Manpower optimization** throughout the company and saved **175 Mln per month**
- Lead time reduction through Value Stream Mapping (**VSM**)
- **5S** and **Visual Management** Implemented in Knitting, Cutting, Dyeing House, and Laundry
- Introduced Lean Consultants to Super fast **Lean Journey** after Getting the TOP Management Buy-In.
- Started Working on **SQPCDM** through Continuous **Training** and **Gemba Walk**
- The initiative has been taken for **5PC Flow Implementation In Apparel Units**
- Inventory was reduced from **1.8 Million to 1.1 Million**
- Implemented **JIT, Kanban, Jidoka, Pull System** in Apparel
- **Traffic Light System ,Five Zero System, BIQ and QAS** was Implemented and Ensured

Interloop Limited

Dec 2010 – Jan 2018

Senior Manager Operations

Interloop is the world's biggest quality socks, hosiery products, Denim apparel, cotton Yarn, activewear, and fashion knitwear manufacturer in Pakistan. Worked as a Senior Manager of Operations for more than 8 years, primary responsibilities include cost reduction, productivity improvement, on time delivery and quality.

Key Responsibilities and Deliverables

- **Safety:** To Ensure Work Place Environment, Health & Safety
 - Work Place Organization through 6S
 - Implementation of Checklist and Daily/ Weekly Audits
 - EHS Trainings Employees' participations
- **Quality:** To Ensure Customer Satisfaction by Pursing Best Quality
 - Built-in Quality through SWS Implementation
 - Training of Employees on Product Quality & Problem Solving
 - 8- Step Problem Solving of Internal / External Failures (PDCA)
 - Zero Customer complaints (Internal/ External) by Fixing Issues on PON
